invece di un "Umanesimo" in cui grande dignità si basa sulla sua libertà, ogni sorta di "infinite possibilità" e può liberamente scegliere quali. La rivoluzione culturale del "Umanesimo" - con l'affermazione dei confini del "nostro territorio" - e incide su spazi (e tempi) ben più. Scrive Jules Pico della Valle "L' Renaissance" (Paris, 1855):

"La scoperta dell'Italia ebbe sul XVI secolo un' a quella dell'America".

È fantastico e feroce sul fatto che Pico, quando elaborò le sue. E che, così giovani, cercava di costruire un ecumenismo filosofico di ogni cultura e di ogni tempo. Una delle forme di questa, in cui si è tradotta la generale tendenza ogni paese a fare l'esperienza dell'Italia": perché non si ha l'irritazione per perfezionare la propria. Un percorso che durerà a lungo e che appartiene al mondo". E questa sensazione è favorita dal disprezzo delle nazioni "degli altri".

IL "TERRITORIO" DEL NOSTRO PENSIERO

Tornando dalla condivisione della pizza a quella del pensiero c'è dunque un pensiero che possa essere definito come "interesse internazionale nei suoi confronti?"

Pensandoci su, non è difficile affermare una relazione tra struttura e l'evoluzione del pensiero.

Per dirne solo una: il nostro Paese è dotato di un certo numero di filosofi ad interrogarsi sul rapporto tra uomo e natura. E anche artistici - in cui essi si sono espressi, da Leonardo da Vinci.

Senza considerare che questa attenzione verso la natura, (vedi Plinio il Vecchio) a quello filosofico (vedi Lucrezio).

Il legame tra pensiero e territorio, è forse abbastanza evidente. Il più generale.
